**Description:**

**SimplaPhone** The Simplaphone &ndash; This is the first home phone with a &rdquo; touch screen that allows the user to dial by photo and see who is calling just by a touch of the screen. The Simplaphone is the first; cordless DECT phone with a built-in camera in the handset and a base with a large display. Take a photo of a friend or relative, put the handset in the cradle and the photo is synchronised with the base and easy to follow instructions on the screen to tell you how to create your phone directory entry. There are also pre-installed standard images to show the doctor, taxi and other useful contacts. The user just has to add the name and number when they buy the phone. It also has voice messaging with photos, so you can see who&rsquo;s called. Simply make calls at the touch of a photo. This is a unique and easy way of making calls with a home telephone. Select the photo of the person you wish to speak to and simply touch the screen. Give yourself peace of mind &ndash; know who you have dialled and see who is calling you before answering. The Multi-view screen displays up to 9 of your favourite contacts stored on the main screen. Quickly browse and dial by touching the screen. Caller ID with photo. The SimplaPhone displays the photo of incoming callers if they are stored in your photo directory. See who is calling you before answering the phone. Take photos of friends and family with the handset&rsquo;s built-in camera. Upload your photos and contact details instantly. The photo directory can store up to 150 entries.
